### Greetings!

Are you excited for the new school year??? I hope so, because education is a great opportunity! Here are some quotes to get you fired up for another beginning.

“All glory comes from daring to begin.” Eugene F Ware

“The deepest personal defeat suffered by human beings is constituted by the difference between what one was capable of becoming and what one has in fact become.”

Ashley Montagu

“When you make the shift to being the predominant creative force in your life, you move from reacting and responding to the external circumstances of your life to creating directly the life you truly want.” Robert Fritz

“I am the master of my fate; I am the captain of my soul.” William E Henley

“All the best work is done the way ants do things – by tiny untiring and regular additions.” Lefcadio Hearn

“Success isn’t a result of spontaneous combustion. You must set yourself on fire.”

Arnold H Glasgow

Your destiny is not a matter of chance. There is no time like the present to create the life you want to live. And we’re here to help!
