

# Dental Hygiene Observations

## Dental Health Care Practitioner:

We ask that the prospective dental hygiene applicants observe a minimum of two 4-hour sessions with two different hygienists in order that they may gain an understanding of dental hygiene practices. We appreciate your time and effort in allowing prospective applicants to observe. Applicants who observe are more knowledgeable of dental hygiene as a career choice.

**Applicant Name:** \_\_\_\_\_

Check here if applicant has had previous experience working on a team with a dental hygienist.
