

# SKILL ADVANCE COLORADO

*Customized training resources designed  
to increase competitive advantage and  
reduce turnover.*

## Grant Funding is meant to support

- New hire and incumbent worker upskilling
- Short-term worksite training aligned with organizational needs
- Wide ranging essential and technical skills development
- Employee retention efforts

The **Center for Workforce Initiatives at Community College of Denver** can support your business in accessing Skill Advance funds by:

- Finding training solutions and providers that fit your needs,
- Writing a successful grant application and budget, and
- Implementing effective scheduling and helping you manage your grant successfully.

**4,000+**

“Hillen Corporation was accepted for a grant loan to train employees in different aspects to remain competitive with our company as well as to increase the quality of the work force. There were different trainings selected for each department such as heavy equipment, lean/office training, and CDL training. My employees really enjoyed the extra trainings and are even more comfortable performing their daily tasks. The skill advance loan is a great resource for any business and Hillen highly recommends using them.”

— Human Resources/Safety Manager  
Hillen Corporation
