This addendum is an integral part of the college’s 2015-2016 Academic Catalog; the purpose of this document is to amend current information or include additional information. The information published herein is effective for the 2015-2016 school year. If any of these changes impact a student’s ability to graduate, please contact the dean for the area in question.

**Academic Information Updates**

**CCD Grade Policy**
Achievement in a course is measured by meeting specific course objectives. CCD students are evaluated using a letter-grade system. Instructors have the authority to assign grades. The following explains what each grade means. For more information, visit www.ccd.edu, consult the course syllabus or ask the instructor to explain their grading system.

**FERPA Update**

**CCS Annual Notification Template**

**Family Education Rights and Privacy**

**CCD Notification of Rights Under FERPA**

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. FERPA rights are afforded to the students at the time of admission. These rights include:

1) **The right to inspect and review the student’s education records within 45 days of the day CCD receives a request for access.** A student should submit to the Office of Admissions, Records and Registration, a written request that identifies the record(s) the student wishes to inspect. The Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the Registrar, they shall advise the student of the correct official to whom the request should be addressed.

2) **The right to request the amendment of the student’s education records that the student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights.**

A student who wishes to ask CCD to amend a record should write the Registrar who will notify the college official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed. If the College decides not to amend the record as requested, the College will notify the student in writing of the decision and the student’s right to a hearing regarding the request for amendment using the Student Grievance Procedure SP 4-31. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3) **The right to provide written consent before CCD discloses personally identifiable information from the student’s education records, except to the extent that FERPA authorizes disclosure without consent.** One exception which permits disclosure without consent is disclosure to College officials with legitimate educational interests. A College official is a person employed by the College in an administrative, supervisory, academic or research or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has contracted as its agent to provide a service instead of using college employees or officials (such as an attorney, auditor, or collection agent); a person serving on the College Board; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. CCD has designated the National Student Clearinghouse as a College official. A College official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the College. Upon request, the College discloses education records, without a student’s consent, to officials of another school, in which a student seeks or intends to enroll, or after enrollment.

The college may share educational records to parents in the following circumstances: for a student who is dependent under I.R.S. tax code; a student under 21 years old who has violated a law or the schools rules or policies governing alcohol or substance abuse; and when the information is needed to protect the health or safety of the student or other individuals in an emergency.

**FERPA Annual Notice to Reflect Possible Federal and State Data Collection and Use**

As of January 3, 2012, the U.S. Department of Education’s FERPA regulations expand the circumstances under which your education records and personally identifiable information (PII) contained in such records — including your Social Security Number, grades, or other private information — may be accessed without your consent. First, the U.S. Comptroller General, the U.S. Attor-
ney General, the U.S. Secretary of Education, or state and local education authorities (“Federal and State Authorities”) may allow access to your records and PII without your consent to any third party designated by a Federal or State Authority to evaluate a federal- or state-supported education program. The evaluation may relate to any program that is “principally engaged in the provision of education,” such as early childhood education and job training, as well as any program that is administered by an education agency or institution. Second, Federal and State Authorities may allow access to your education records and PII without your consent to researchers performing certain types of studies, in certain cases even when we object to or do not request such research. Federal and State Authorities must obtain certain use-restriction and data security promises from the entities that they authorize to receive your PII, but the Authorities need not maintain direct control over such entities. In addition, in connection with Statewide Longitudinal Data Systems, State Authorities may collect, compile, permanently retain, and share without your consent PII from your education records, and they may track your participation in education and other programs by linking such PII to other personal information about you that they obtain from other Federal or State data sources, including workforce development, unemployment insurance, child welfare, juvenile justice, military service, and migrant student records systems.

The Colorado Community College System considers the following to be directory information and CCD staff may disclose this information, without prior consent, to anyone inquiring in person, by phone, or in writing: Student name; Major field of study; Dates of student attendance; Degrees / certificates and awards student has earned; Most recent educational institution attended by the student; enrollment status (full time, part time, etc.), Participation in officially recognized activities and sports; and if participating in an officially recognized activity or sport, height, weight, and school attended.

Addresses (including mail and e-mail) are considered PII and are not released as Directory Information except for the following:
- Graduation lists released to news media, which may include the student’s city of residence.
- Other listings to the news media and college personnel for special awards, honors, and events.

Notification to Phi Theta Kappa Honor Society and other academic honor societies for students who are eligible to be considered for membership

Additionally, name, address, phone number, date and place of birth, level of education, most recently attended college, field of study, and degree(s) received of students may be released to military recruiters upon request in accordance with the Solomon Amendment. All other information contained in student records is considered private and not open to the public without the student’s written consent. Students who do not want their directory/public information released to third parties or students who do not want to be listed in the College online e-Directory should complete a form to suppress directory information available online or at the Office of Admissions, Records and Registration by the first day of the semester.

4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5901

STUDENT GRIEVANCE PROCEDURE
CCD’s new Title IX/EO Coordinator is Daniel Kast- (303) 352-5018; Daniel.kast@ccd.edu.

New Programs

CERTIFICATE IN APPLIED HEALTHFUL AGING
Center for Health Sciences at Lowry

**This program is not eligible for federal student aid.**

This Certificate program provides the knowledge to enhance your allied health credentials and open career possibilities. The two- semester program will allow you to direct your healthcare skills to ensure that vitality and dignity are an integral part of the aging process. The second semester provides students the opportunity to engage in a 240 hour (approximately 30 days) internship. This internship is designed to assist students in utilizing their newly acquired knowledge and skills to improve lives and make a positive impact on the population they will be serving. The only prerequisite is healthcare certification or licensure. Credit for work experience is an option for the internship course and will be evaluated on a case-by-case basis. Please contact the Don McCoy (Donald.McCoy@ccd.edu) for specific information on Prior Learning Assessment and a review of your work history.

Total: ................................................................................................................................. 60

*Students planning to transfer to CSU-FC will be required to complete a 200-level foreign language for completion of the BA in Art-Art History. Students will be expected to be prepared upon completion of the associate's degree to take an intermediate foreign language or be able to pass the CSU-FC Foreign Language placement exam at the sophomore level. It may not be possible to complete the BA in Art-Art History concentration in two years without this prior foreign language competency.

Note: Course substitutions are not permitted for any Statewide Transfer Degree program.

If, because course substitutions are not permitted, a student is not able to complete this Statewide Transfer Degree plan, the student should see a Program Advisor for guidance.

Students are strongly encouraged to seek academic advising prior to registration regarding the acceptability of online science courses if they anticipate transferring to a four year institution or completing graduate work in the science or health professions. It should be noted that per Colorado Revised Statute, § 23-1-125(1)(e), general education courses taken online are guaranteed to satisfy core course (GT Pathways) requirements at all Colorado public institutions of higher education.

Note: Course substitutions are not permitted for any Statewide Transfer Degree program.

If, because course substitutions are not permitted, a student is not able to complete this Statewide Transfer Degree plan, the student should see a Program Advisor for guidance.

In addition to meeting the requirements listed here, contact the department at the school to which you want to transfer for program-specific information.
If these credits are not required for the major at the receiving 4-year institution, they will be applied to the Bachelor's degree as elective credit towards graduation. Please check with the receiving institution to determine in which way these courses will be applied.

**Note:** Course substitutions are not permitted for any Statewide Transfer Degree program.

If, because course substitutions are not permitted, a student is not able to complete this Statewide Transfer Degree plan, the student should see a Program Advisor for guidance.

Total ........................................................................................................................................................................ 60

*Students planning to transfer to University of Colorado Boulder must take CHE 112 (not CSC 160) to fulfill this requirement; students planning to transfer to University of Northern Colorado must take CSC 160 (not CHE 112) to fulfill this requirement; students planning to transfer to Fort Lewis College or University of Colorado Colorado Springs must take both CSC 160 and CHE 112; students planning to transfer to a receiving institution not listed here may choose either one of these courses.

**Please Be advised: If you choose to take one of these courses, it will put you over 60 credits. The courses will transfer but the extra credits may not. That is, the receiving institution may still require the completion of 60 credits for the major.

Note: Course substitutions are not permitted for any Statewide Transfer Degree program.

If, because course substitutions are not permitted, a student is not able to complete this Statewide Transfer Degree plan, the student should see a Program Advisor for guidance.

**Total** .............................................................................................................................................................................................................. 60

This statewide transfer articulation agreement in Chemistry does not fulfill requirements for the GT Pathways general education curriculum or the Associate of Science degree prior to transfer; however, this agreement does guarantee a student, if admitted, junior standing and completion of the baccalaureate degree within an additional 60 semester hours at the receiving institution.

Completion of the receiving institution’s lower division general education requirements is fulfilled only under the condition that one GT Pathways-approved course in arts and humanities (AH1, AH2, AH3, or AH4) and one GT Pathways-approved course in social and behavioral sciences (SS1, SS2, or SS3) are successfully completed at the receiving institution within the first 30 hours or 12 calendar months.

Students transferring to a 4-yr college/university under this Chemistry agreement are encouraged to ‘reverse’ transfer the one GT Pathways course in arts and humanities (Note #2 above) back to their community college in order to complete the GT Pathways general education program and to earn their Associate of Science degree with a Chemistry designation.

Lecture and laboratory portions of organic chemistry, CHE 211 and 212, must not be taken in an online delivery format.

**Note:** Course substitutions are not permitted for any Statewide Transfer Articulation Agreement.

If, because course substitutions are not permitted, a student is not able to complete this Statewide Transfer Articulation Agreement, the student should see a Program Advisor for guidance.

_All changes are shaded yellow._
ASSOCIATE OF APPLIED SCIENCE TRANSFER DEGREE IN ACCOUNTING

ACCOUNTING
The following courses represent the transfer oriented Associate of Applied Science Degree for Accounting majors. Upon completion of the AAS Transfer Degree in Accounting, students may transfer to Metropolitan State University of Denver’s Bachelor of Science program in Accounting. An additional 60 credits of MSU-Denver coursework must be completed to earn the Bachelor of Science Degree in Accounting from MSU-Denver. All AAS Transfer Degree coursework must be completed with a grade of C or better.

CERTIFICATE IN ENGINEERING GRAPHICS

Scanned Input 3D Modeling Certificate
**This program is not eligible for federal student aid.**
The 7 credit hour certificate covering both 3D Printing and 3D Scanning and Modeling is design for post Engineering Graphics/Mechanical Designer AAS or CAD designers with established 3D parametric modeling skills. The first class, 3D Printing, will provide students with the ability to blend the virtual and real design worlds together through the use 3D CAD Modeling and 3D Printing. The second class, 3D Scanning and Modeling, exposes students to 3D scanning and modeling. Students will manipulate various types of 3D scanning technology and create CAD models using scanning software and other CAD programs.

Program Admission Requirements

CERTIFICATE IN MACHINE TECHNOLOGIES
CCD Manufacturing Center
Multi Axis Lathe Certificate
**This certificate is not eligible for federal student aid.**
This program is designed to instruct students in the set-up, operation, and programming of multi axis lathes. The student will work with live-tooling and dual-spindles to program and manufacture one-off parts. This course of study is an advanced program meant for Machining Technologies AAS degree graduates or for incumbent employees with advanced CNC skills and advanced programming experience.

All changes are shaded yellow.
Program Admission Requirements
Completion of a Machining Technologies degree within the past 5 years. Minimum work history requirements, prior CNC programming experience, minimum testing scores and employer references.

Requirements
MAC 262 Introduction to multi-axis lathe ................................................................. 2
MAC 263 Multi-Axis Lathe Operation ........................................................................ 3
MAC 264 Multi-Axis Lathe Programming ................................................................. 3
Total ....................................................................................................................... 8

CERTIFICATE IN MACHINE TECHNOLOGIES
CCD Manufacturing Center
CNC Wire EDM Certificate
**This certificate is not eligible for federal student aid.**
This program will instruct a student in the basics of CNC wire EDM set-up, programming and controller operations. This course of study is an advanced program meant for Machining Technologies AAS degree graduates or for incumbent employees with advanced CNC skills and programming experience.

Program Admission Requirements
Completion of a Machining Technologies degree within the past 5 years. Minimum work history requirements, prior CNC programming experience, minimum testing scores and employer references.

Requirements
MAC 251 Introduction to Wire EDM ....................................................................... 2
MAC 253 Wire EDM Operation ................................................................................ 3
MAC 257 Wire EDM Programming ......................................................................... 3
Total ....................................................................................................................... 8

CERTIFICATE IN MACHINE TECHNOLOGIES
CCD Manufacturing Center
Five Axis Milling Machine Certificate
**This certificate is not eligible for federal student aid.**
Upon completion of this program a student will be able to set-up, operate and program five-axis milling machines. The student will be familiar with tool management, pallet changers, and lights-out manufacturing. This course of study is an advanced program meant for Machining Technologies AAS degree graduates or for incumbent employees with advanced CNC skills and advanced programming experience.

Program Admission Requirements
Completion of a Machining Technologies degree within the past 5 years. Minimum work history requirements, prior CNC programming experience, minimum testing scores and employer references.

Requirements
MAC 259 Introduction to Five-axis Milling Machine ............................................. 2
MAC 260 Five-axis Milling Machine Operation ...................................................... 3
MAC 261 Five-axis Milling Machine Programming ................................................ 3
Total ....................................................................................................................... 8

COMPUTED TOMOGRAPHY CERTIFICATE
Center for Health Sciences at Lowry
Computed Tomography Certificate, Non-Distance
The medical imaging modality of Computed Tomography (CT) is critical in the diagnosis and treatment of trauma, as well as in the evaluation of many pathological processes. This program will assist qualified students in obtaining the necessary didactic education and mandatory clinical competencies to prepare them to sit for the American Registry of Radiologic Technologists (ARRT) CT Certification Examination. The program will prepare students for entry-level clinical practice.

The Non-Distance Computed Tomography Certificate program consists of two online didactic classes and two semesters (500 hours) of clinical internship.

Enroll in RTE 240 and RTE 255 didactic classes, with two semesters of clinical RTE 284 (6 credit hours per semester) where CCD would provide clinical experience through the current clinical affiliates of CCD. Students would receive regular clinical instruction by CCD faculty and be covered under CCD’s professional liability insurance.

Students must complete the minimum of 500 documented CT clinical training hours within 24 months prior to graduation.
Program Admission Requirements
Prior to enrolling in the program, students must complete all steps of the CCD college admission process. The online college application is available at www.ccd.edu: select “Future Student, Apply to CCD Today”. NOTE: Admission to the college does not guarantee admission to the CT program.

Only students who wish to perform a clinical internship in one of CCD’s clinical affiliate facilities must apply to the program. Enrollment in RTE 240 and RTE 255 does not require a program application packet; just register following standard college enrollment procedures.

Admission to the CT Non-Distance Certificate Program is dependent upon the following:
• Fulfilling all requirements for admission to CCD.
• Possess a current ARRT or NMTCB certification, or be a registry eligible graduate of an accredited program in Radiologic Technology, Nuclear Medicine and/or Radiation Therapy.

Applicants must have a minimum of one year experience in direct patient care.

Submission of a complete admissions packet a minimum of eight weeks prior to the start of the semester in which the student plans to begin the program. Dates will be verified by postmark.

Clinical site availability. Internship placement is on a first-come, first-served basis. Students will be notified by the CT Coordinator of acceptance and placement.

Admissions Packet
The admissions packet consists of documents that can be downloaded from the website https://www.ccd.edu/academics/academic-centers/health-sciences-lowry/programs-study/radiologic-technology/apply and includes the following:
• CT Program Application
• Current resume with proof of one year direct patient care experience
• Copy of current ARRT or NMTCB certification card
• Current CPR (BLS for Healthcare Providers) card

Background Check and Drug Screen – must be completed six weeks prior to the start of the semester after notification of acceptance into the program by the CT coordinator

Documentation of current Qualitative Respiratory Fit Test
Immunization record documenting the following:
• PPD done within the last 3 months
• MMR - 2 immunizations or documentation of immunity
• Hepatitis B series
• Varicella - immunization or documentation of disease
• Tetanus/Diphtheria Toxoid (TD)
• Annual Flu Shot
Other documents as listed on the website

Requirements
RTE 240 Principles of CT Imaging* .................................................................................................................. 3
RTE 255 Multiplanar Sectional Imaging* ........................................................................................................... 2
RTE 284 Advanced Clinical Internship (CT) .................................................................................................... 6
RTE 286 Advanced Clinical Specialty II .......................................................................................................... 6
Total .................................................................................................................................................................... 17
*Courses are offered online through Desire2Learn and can be taken separately.
*Enrollment in RTE 240 and RTE 255 is not restricted and does not require application to program.

COMPUTED TOMOGRAPHY CERTIFICATE
Center for Health Sciences at Lowry
Computed Tomography Certificate, Distance
The medical imaging modality of Computed Tomography (CT) is critical in the diagnosis and treatment of trauma, as well as in the evaluation of many pathological processes. This program will assist qualified students in obtaining the necessary didactic education to prepare them to sit for the American Registry of Radiologic Technologists (ARRT) CT Certification Examination.

The Computed Tomography Distance Certificate program is designed primarily for long distance or out-of-state students. It consists of two online didactic classes and an instructor review of clinical competencies.
Enroll in RTE 240 and RTE 255 didactic classes and RTE 284 (1 credit hour), which would be used for verification of clinical competencies and required clinical hours. The student would be responsible for obtaining their own clinical placement and would not receive any clinical instruction by CCD faculty or be covered under CCD's professional liability insurance.

Students must complete the minimum of 500 documented CT clinical training hours within 24 months prior to graduation.

**Program Admission Requirements**

Prior to enrolling in the program, students must complete all steps of the CCD college admission process. The online college application is available at www.ccd.edu: select “Future Student, Apply to CCD Today”.

Enrollment in RTE 240 and RTE 255 does not require a program application packet; just register following standard college enrollment procedures.

Admission to the CT Distance Certificate Program is dependent upon the following:

- Fulfilling all requirements for admission to CCD.
- Possess a current ARRT or NMTCB certification, or be a registry eligible graduate of an accredited program in Radiologic Technology, Nuclear Medicine and/or Radiation Therapy.

Submission of a complete admissions packet a minimum of four weeks prior to the start of the semester in which the student plans to begin the program. Dates will be verified by postmark.

**Admissions Packet**

The admissions packet consists of documents that can be downloaded from the website https://www.ccd.edu/academics/academic-centers/health-sciences-lowry/programs-study/radiologic-technology/apply and includes the following:

- CT Program Application
- Current resume with proof of one year direct patient care experience
- Copy of current ARRT or NMTCB certification card
- Immunization record documenting the following:
  - PPD done within the last 3 months
  - MMR - 2 immunizations or documentation of immunity
  - Hepatitis B series
  - Varicella - immunization or documentation of disease
  - Tetanus/Diphtheria Toxoid (TD)

**Updates and Corrections to Programs**

---

**ASSOCIATE IN GENERAL STUDIES**

Core course requirements may NOT be waived or substituted.

---

**ASSOCIATE OF APPLIED SCIENCE DEGREE IN ENGINEERING GRAPHICS**

**Mechanical Drafter AAS Degree**

The Engineering Graphics Mechanical Drafter program allows students to pursue an Associate of Applied Science Degree that provides an opportunity to learn the skills needed to become a CAD/Drafter in many of the important industries throughout Colorado and the country. This degree program will include the skills from 2D CAD drafting to 3D parametric modeling. Along the degree path, students will also have opportunities to augment their CAD skills with rapid prototyping, using a state-of-the-art 3D printer, as well as exposure to Computer Aided Machining programs such as Gibbs CAM and MasterCAM. Also in the degree plan, students will be trained in mechanical design and will develop an understanding of mechanical design with an eye towards manufacturability.
### Program Admission Requirements
Meet minimum assessment scores or prerequisites required for general education courses in the program.
Meet with Program Chair or Program Advisor. Call to make an appointment.

### CERTIFICATE IN ENGINEERING GRAPHICS
**Engineering Graphics Intermediate Mechanical Certificate**
This certificate builds on the Basic Certificate. It provides currency and skill training for individuals wanting to work in the field of Engineering Graphics Mechanical Design. This program includes skills needed to understand 3D parametric drafting using the state of the art drafting program. This certificate is fully transferable to the Mechanical Drafter AAS Degree. Please see a Program Advisor about this pathway.

### Program Admission Requirements
Meet minimum assessment scores or prerequisites required for general education courses in the program.
Meet with Program Chair or Program Advisor. Call to make an appointment.

SPANISH DWD
Science Requirement:
Two GT Pathways Natural & physical Sciences courses (GT-SC1, GT-SC2). One of these courses must have the required laboratory (GT-SC1)

COMMUNICATIONS DWD
Electives have been updated to the following:
Note: Not all courses listed below are available at CCD.
ACC 121, 122
ANT – all courses
ARA – all courses 111 and higher
ART – all courses
ASL – all course 121 and higher
AST – all courses
BIO – all courses
BUS 115, 216, 217, 226
CHE – all courses
CHI – all courses 111 and higher
CIS 118
COM – all courses
CRJ 110
DAN & PED – all courses (up to 4 credits total)
ECE 101, 102, 205, 238, 241
ECO – all courses
EDU 221
ENG – all courses 121 and higher
ENV 101
FRE – all courses 111 and higher
GEO – all courses
GER – all courses 111 and higher
GEY – all courses
HIS – all courses
HUM – all courses
HWE 100
ITA – all courses 111 and higher
JOU – all courses
JPN – all courses 111 and higher
LIT – all courses
MAT – all courses 120 and higher
MGD – all courses
MUS – all courses
PHI – all courses
PHY – all courses
POS – all courses
PSY – all courses
SCI 155, 156
SOC – all courses
SPA – all courses 111 and higher
THE – all courses
WST – all courses

All changes are shaded yellow.
**RADIATION THERAPY**

Upon successful completion of the Radiation Therapy Program, graduates are eligible to apply for registry by the American Registry of Radiologic Technologists (ARRT) in Radiation Therapy. This program will prepare diagnostic technologists, RT(R), to be Radiation Therapists, RT(T). A certificate is obtained over three semesters. A new class begins in the fall semester of each year. Graduates will be dual registered, RT(R)(T).

**Application Information**

See program application process at our website www.ccd.edu/program/radiation-therapy.

Qualified applicants will be notified on or before May 25. Upon program acceptance, background check, fingerprinting and drug screening must be completed prior to the start of classes.

**Radiation Therapy Certificate**

*Center for Health Sciences at Lowry*

ASSOCIATE OF APPLIED SCIENCE DEGREE IN RADIOLOGIC TECHNOLOGY

Steps to a Successful Application

Prior to enrolling in the program, students must complete all steps of the CCD college admissions process. The online college application is available at www.ccd.edu: select “Future Student, Apply to CCD Today”. Radiologic Technology admissions packets are accepted annually. They are available July 1st and must be submitted and postmarked by December 1st to be considered for admission into the class beginning fall of the next academic year. Only packets complete in entirety upon submission will be accepted for consideration. They will be evaluated by the program faculty.

- Admission to the program, which is a highly competitive process, is based on a point system (100), determined by the following required criteria:
  - Minimum GPA of 3.0 for science and medical terminology courses and 2.8 for General Education courses (20 points)
    Note: All prerequisites must be taken for a letter grade.
  - Performance on Health Occupational Aptitude Exam (20 points)
    This exam will be by invitation only, based upon having met the minimum requirements and submission of a completed application.
  - 12 hours of documented job shadowing (minimum) (12 points)
  - 2 structured letters of recommendation (minimum) (10 points)
  - Interview with the application panel (30 points)
    Note: The number of applicants who are invited to participate in the interviews depends upon the number of clinical placement sites which are available. Approximately 36 interviews will be granted.
  - Health care experience (not requisite criteria) (4 points)
  - Proof of Colorado residency (4 points)

- Approximately 25 of the highest scoring candidates from the panel interview and admissions evaluation will be invited to enter the Radiologic Technology program.

- Candidates who are not selected to enter the program will be provided with advisement, if desired. Students may apply for the program a total of three times.

- All prerequisite science classes must have been taken within seven academic years prior to the July start of the program. All math courses must have been taken within 10 academic years prior to the start of the program. Science courses must have been taken within 7 academic years prior to the start of the program.

Mammography Certificate

Program Admission Requirements

Prior to enrolling in the program, students must complete all steps of the CCD college admissions process. The online college application is available at www.ccd.edu: select “Future Student, Apply to CCD Today”.

Note: Admission to the college does not guarantee admission to the Mammography program.

- Admission to the Mammography program is dependent upon the following:
  - Fulfilling all requirements for admission to CCD.
  - Current ARRT certification in Radiography.
  - Applicants must have a minimum of one year experience in direct patient care.
  - Submission of a complete admissions packet a minimum of eight weeks prior to the start of the semester in which the student plans to begin the program. Dates will be verified by postmark.
  - Clinical sites are limited. Enrollment in RTE 291 is restricted, and internship placement is on a first-come, first-served basis. Students will be notified by the Mammography Coordinator of acceptance and placement.

Admissions Packet

The admissions packet consists of documents that can be downloaded from the website https://www.ccd.edu/academics/academic-centers/health-sciences-lowry/programs-study/radiologic-technology/apply and includes the following:

- Mammography Program Application
- Current resume with proof of one year direct patient care experience
- Copy of current ARRT certification card
- Current CPR (BLS for Healthcare Providers) card
- Background Check and Drug Screen - must be completed six weeks prior to start of the semester after notification of acceptance into the program by the Mammography Coordinator.
- State of Colorado Provisional Mammography License—Colorado requires a provisional license for mammographers in training. Students will apply for this license upon acceptance into the program and completion of the requisite Background Check and Drug Screen. Immunization record documenting the following:
• PPD done within the last 3 months
• MMR - 2 immunizations or documentation of immunity
• Hepatitis B series
• Varicella - immunization or documentation of disease
• Tetanus/Diphtheria Toxoid (TD)
• Annual Flu Shot

**VETERINARY TECHNOLOGY ASSISTANT CERTIFICATE**

The Veterinary Technician Assistant Certificate program provides training in veterinary health and handling of a variety of domestic and exotic species, with the focus on tasks for assisting the Veterinary Technician and Veterinarians. Veterinary Technician Assistants do not diagnose animal illnesses, prescribe treatment, or perform surgery. This is a 15 week program, 11 weeks of class and 4 weeks of internship. Ten credit hours of course work must be completed before students may complete 3-credit, 90-hour private-practice internships. This program provides an introduction to the field of veterinary medicine, but is not intended to provide admission to a college of veterinary medicine.

**Admission Requirements**
1. Completion of a high school diploma or GED
2. Achievement of indicated assessment scores or completion of preparatory course work.

Students must be admitted to the Veterinary Technician Assistant program in order to take the curriculum courses as shown below.

All courses must be completed with a grade of C or better prior to graduation.

**New Courses**

**ANT 126 Colorado Archaeology**
3 credit hours
Prerequisite: Grade of C or better in CCR 092, CCR 093, CCR 094, or ENG 090; or equivalent English and Writing assessment score placements; or equivalent ACT/SAT scores
Identifies and evaluates distinct prehistoric cultures present in the region now known as Colorado since about 10,000 years ago, using specific archaeological techniques and terminologies.

**ANT 137 Southwest US Archaeology**
3 credit hours
Prerequisite: Grade of C or better in CCR 092, CCR 093, CCR 094, or ENG 090; or equivalent English and Writing assessment score placements; or equivalent ACT/SAT scores
Identifies the complex regional population centers and cultural traditions of prehistoric peoples of the 4-Corners (Colorado, Arizona, New Mexico, Utah) and analyses evidence of cultural interaction with peoples of Meso-America and with the ecology of the region.

**AST 155 Astronomy of Ancient Cultures: GT - SC2**
3 credit hours
Prerequisite: Grade of C or better in CCR 092, CCR 093, CCR 094, or ENG 090 and REA 090; and grade of C or better in MAT 090 or MAT 050; or English assessment score of 95 or better and/or Reading assessment score of 80 or better; and Math assessment score of 60 or better; or equivalent ACT/SAT scores
Introduces the study of archaeoastronomy and ethnoscience. Students will study the principles of naked eye astronomy and examine how those principles have been used for timekeeping, navigation, religion and ritual, political power, cosmology and worldview. Methods of the ethnoastronomer will be covered, including measurement of alignments, analysis of written records, examination of art and architecture, and incorporation of general knowledge about the culture being studied. This course is one of the Statewide Guaranteed Transfer Courses. GT-SC2

**CAD 175 Special Topics**
3 credit hours
Prerequisite: This course may require prerequisites or permission of instructor
Provides students with a vehicle to pursue in depth exploration of special topics of interest.

All changes are shaded yellow.
CAD 264 3D Scanning and Modeling
3 credit hours
Prerequisite: CAD 262 with a grade of C or better
Exposes student to 3D scanning and modeling. Students will manipulate various types of 3D scanning technology and create CAD models using scanning software and other CAD programs.

COM 102 Collegiate Communication
1 Credit Hour
Prerequisite: Prerequisite: Minimum English assessment score required, or equivalent assessment score placement, or equivalent ACT/SAT scores
Promotes student success at the community college level and beyond by exploring effective communication, self-concept, self-esteem, self-perception, attitude, and goal setting. This course also examines personal, health, and finance management. This course includes communication skills for leadership and community development, diversity awareness, and achieving successful academic performance and overcoming adversity.

EGG –ENGINEERING COURSES

ESL 054 ESL Reading and Composition Foundations
5-6 credit hours
Prerequisite: ESL 023, 043, and 052 or LOEP REA score 96 or better and Writing Assessment and LOEP Grammar score of 66 or better
Integrates reading and composition skills. The course reviews paragraph organization and develops the skill of writing essays using selected rhetorical modes. It emphasizes accurate use of advanced grammatical structures. Includes summarizing, paraphrasing, and research writing. In addition, the course focuses on strategies for vocabulary development, improved reading comprehension, and enrichment.

HIS 239 The Sixties in America
3 credit hours
Prerequisite: Grade of C or better in CCR 092, CCR 093, CCR 094, or ENG 090; or equivalent English and Writing assessment score placements; or equivalent ACT/SAT scores
Explores the political, social, and cultural history of 1960s America.

HPR 115 Gerontology for Care Providers
1 credit hour
Prerequisite: Registered or certified health care professional
Prepare the care provider to care for the older adult by understanding how normal aging affects a person physiologically, psychosocially, and culturally. The learner will be introduced to current theories on aging, nutritional needs, safety issues, community resources, and health care guidelines for the older adult.

HPR 157 Contemporary Issues in Elderly
3 credit hours
Prerequisite: Registered or certified health care professional
Teaches the student to become familiar with the issues surrounding eldercare today. Issues pertaining to health, wellness, emotional/psychosocial, and financial will be explored.

HPR 180 Internship
4 credit hours
Prerequisite: Grade of C or better in HPR 106, HPR 108, HPR 115, and HPR 157
Provides students with the opportunity to supplement coursework with practical work experience related to their educational program. Students work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.

HUM 219 History of Jazz
3 credit hours
Prerequisite: Grade of C or better in CCR 092, CCR 093, CCR 094, or ENG 090; or equivalent English and Writing assessment score placements; or equivalent ACT/SAT scores
Explores important themes in American social and cultural history through the study of Jazz music, as well as examines how popular and critical tastes are reflections of artistic, cultural, sexual, economic and ideological sensibilities at the time of its production. Emphasis is placed on understanding the social and cultural contexts of the music rather than on a rigorous understanding of the music itself.

MGD 275 Special Topics.
0-12 credit hours
Prerequisite: Grade of C or better in MGD 101 and MGD 116
Provides students with a vehicle to pursue in depth exploration of special topics of interest.
RTH 255 CT For Radiation Therapists
2 credit hours
Prerequisite: RTH 221, RTH 225, and RTH 242 with a grade of C or better

SCI 175 Special Topics
0-12 credit hours
Prerequisite: This course may require prerequisites or permission of instructor
Provides students with a vehicle to pursue in depth exploration of special topics of interest.

SCI 275 Special Topics
0-12 credit hours
Prerequisite: This course may require prerequisites or permission of instructor
Provides students with a vehicle to pursue in depth exploration of special topics of interest.

VET 101 Career Development Animals
2 credit hours
Prerequisite: Admission into the Veterinary Technology or Veterinary Technology Assistant program
Assists the student in recognizing their career potential in the animal industry. It will supply the tools necessary to be competitive in the animal industry and provides students with the ability to make realistic decisions concerning education and occupational objectives.

WEL 107 Railroad Welding I Mechanical Structural Welding and Cutting Basics
3 credit hours
Prerequisite: Program Chair approval
Introduces fundamental cutting and welding skills required for welding to D15.1 Railroad welding Specification-Cars and Locomotives code.

WEL 108 Railroad Welding II - Mechanical Structural Stick Welding
3 credit hours
Prerequisite: Program Chair approval
Develops the fundamental Shielded Metal Arc Welding (SMAW) skills, including theory, safety, and equipment set up and operation for welding to D15.1 Railroad welding Specification-Cars and Locomotives code.

WEL 109 Railroad Welding III – Mechanical Structural Wire Welding
3 credit hours
Prerequisite: Program Chair approval
Develops the fundamental Gas Shielded Flux Cored Arc Welding (FCAW-G) skills, including theory, safety, and equipment set up and operation as it applies to the American Welding Society (AWS) D15.1 Railroad welding Specification-Cars and Locomotives code.

Updates and Corrections to Courses

“950” courses in all subject prefixes denote inter-institutional courses. See the Glossary of Academic Terms for more information.

AEC 104 Architectural Drawing Theory
Prerequisite: Minimum math, reading, English assessment score required or equivalent assessment score placement, or program chair or advisor permission

BTE 120 Introduction to Business Practices
3 credit hours
Examines business practices in the workplace.

CAD 101 Computer Aided Drafting I
Prerequisite: Minimum math, reading, English assessment score required or equivalent assessment score placement, or program chair or advisor permission

CAD 115 Sketchup
Prerequisite: Minimum math, reading, English assessment score required or equivalent assessment score placement, or program chair or advisor permission

CAD 217 Rhino
Prerequisite: Grade of C or better in CAD 224 and CAD 240 or permission of Chair

All changes are shaded yellow.
CAD 224 Revit Architecture
Prerequisite: Minimum math, reading, English assessment score required or equivalent assessment score placement, or program chair or advisor permission

CAD 255 SolidWorks/Mechanical
3 credit hours
Prerequisite: English assessment score of 20 or better, or equivalent ACT/SAT scores, or instructor permission
Introduces parametric feature-based solid modeling 3D concepts to build confidence in 3D thinking and progresses to three-dimensional parameters. The student learns to construct, modify, and manage complex parts in 3D space as well as to produce 2D drawings from the 3D models.

CAD 262 3D Printing/Additive Manufacturing
3 credit hours
Prerequisite: CAD 240 with a grade of C or better
Provides the student with the ability to blend the virtual and real design worlds together through the use of 3D CAD Modeling, and 3D Printing.

CCR 093 Studio D
3 credit hours
Prerequisite: CCR 092, ENG 060, ESL 053, ESL 054, or REA 060 with a grade of C or better, or equivalent English and/or Reading Assessment score

CCR 094 Studio 121
3 credit hours
Prerequisite: CCR 092, ENG 060, ESL 053, ESL 054, or REA 060 with a grade of C or better, or equivalent English and/or Reading Assessment score

CIS 110 Introduction to Computing Technology
1 credit hour
Prerequisite: English assessment score of 20 or better, or equivalent ACT/SAT scores, or instructor permission
Introduces basic computing technology with an emphasis on document creation and storage. Use of technology for email, web surfing, and access to course materials is included.

CIS 118 Introduction to PC Applications
3 credit hours
Prerequisite: CIS 110 or CIS 117 with a grade of C or better; or English assessment score of 50 or better and Math assessment score of AR 40 or EA 30 or better
Introduces basic computer terminology, file management, and PC system components. Provides an overview of office application software including word processing, spreadsheets, database, and presentation graphics. Includes the use of a web browser to access the internet.

EGT 289 Capstone-Projects in 3D for Industrial Drafting and Design
6 credit hours
Prerequisite: CAD 264
A demonstrated culmination of learning within a given program of study.

EMS 170 EMT Clinical

ESL 031 Basic Listening & Speaking
3 credit hours
Prerequisite: LOEP Listening assessment score of 35-49
Focuses on listening and speaking activities that help the student communicate more competently. Provides practice with pronunciation, vocabulary, and basic grammatical patterns.

ESL 032 Intermediate Listening & Speaking
3 credit hours
Prerequisite: ESL 031 or ESL 071 with a grade of C or better, or LOEP Listening assessment score of 50-69
Teaches listening, pronunciation and conversation skills. Increases speed and accuracy in speaking through free and guided conversational practice.
ESL 033 Advanced Listening & Speaking
3 credit hours
Prerequisite: ESL 032 or ESL 072 with a grade of C or better, or LOEP Listening assessment score of 70-89
Provides students with opportunities to increase the listening and speaking skills required in academic and work situations. Emphasizes vocabulary building, listening, and note-taking strategies, as well as questioning, discussion and presentation skills.

HIS 203 Civil War Era in American History: GT-HI1
3 credit hours
Prerequisite: Grade of C or better in CCR 092, CCR 093, CCR 094, or ENG 090; or English assessment score of 95 or better, or equivalent ACT/SAT scores
Explores the causes, course, and consequences of the American Civil War, from the Colonial period to the 21st Century, in order to understand the multiple meanings of a transforming event in American history. Students will explore the meanings of the war as defined in many ways: national, sectional, racial, gender, constitutional, individual, social, intellectual, or moral. Students will closely examine four broad themes: the crisis of union and disunion in an expanding republic; slavery, race, and emancipation as national problem, personal experience, and social process; the experience of modern, total war for individuals and society; and the political and social challenges of Reconstruction. This course is one of the Statewide Guaranteed Transfer courses. GT-HI1

HPR 112 Phlebotomy
4 credit hours
Prerequisite: Grade of C or better in BIO 201, BIO 202, ENG 121, HPR 137, HPR 178 and MOT 136
Teaches the duties associated with the practice of venipuncture, capillary puncture, and special collection procedures. Students will have experience with quality control, infection control and safety procedures as well as laboratory computer systems. Students successfully completing this course may apply for a National Phlebotomy Registry Examination.

HPR 137 Human Diseases
4 credit hours
Prerequisite: Grade of C or better in BIO 201, BIO 202, HPR 178 and MOT 136
Corequisite: MOT 150
Covers basic knowledge of the deviations that occur in the human body with disease and injury. An integrated study of signs/symptoms, diagnostic tests and treatment.

HPR 208 Medical Terminology for the Electronic Health Professional
2 credit hours
Demonstrates knowledge of medical terminology with emphasis on combining complex prefixes, roots and suffixes. Course includes pathophysiology for major body systems. Course includes terms related to diagnostic tools per body systems, as well as commonly used medical abbreviations. Course applies medical terminology knowledge in interpreting the medical record.

JOU 106 Media News and Reporting
3 credit hours
Prerequisite: Grade of C or better in CCR 092, CCR 093, CCR 094, or ENG 090; or English assessment score of 95 or better, or equivalent ACT/SAT scores
Introduces newswriting, reporting and interviewing with an emphasis on clarity, accuracy, completeness, timeliness and fairness.

JOU 225 New Media
3 credit hours
Prerequisite: ENG 121 with a grade of C or better
Explores techniques and approaches in the latest delivery methods for internet-based journalism. Students explore digital media outlets such as blogs, audio and video podcasts, e-zines and social networks. Students create journalistic pieces for internet-based media, focusing on best journalistic practices, ethics of internet media, and technology emergence effecting digital journalism. Concepts in video production, photography, writing, sourcing, editing and relevant skills necessary for the citizen journalist are introduced. Students create components for online news dissemination.

MAC 102 Print Reading for Machinists
3 credit hours
Instructs students in reading and understanding industrial prints. This course covers basic drafting and print standards, fundamentals of shape description, fundamentals of size description and annotation, industrial drawing types, and specialized parts and prints. Symbol interpretation, Tolerancing and dimensioning standards are also covered.
MAN 226 Principles of Management
3 credit hours
Prerequisite: BUS 115 with a grade of C or better
Presents a survey of the principles of management. Emphasis is on the primary functions of planning, organizing, leading and controlling with a balance between the behavioral and operational approach.

MAT 025 Algebraic Literacy Lab
Prerequisite: Math Assessment score of LADI 067, PADI 001, or equivalent
Corequisite: Students must co-enroll in a corresponding section of MAT 055. MAT 025 is a structured study experience for MAT 055 students.

MAT 050 Quantitative Literacy
Prerequisite: CCPT IADI score of 001, PADI score of 001, LADI score of 67, or equivalent.

MAT 055 Algebraic Literacy
Prerequisite: CCPT IADI score of 001, PADI score of 001 with a corequisite of MAT 025, LADI score of 67 with a corequisite of MAT 025, or equivalent. MAT 025 is a structured study experience for MAT 055 students.

MGD 111 Adobe Photoshop I
3 credit hours
Prerequisite: Grade of C or better in MGD 101 and MGD 116, or MGD 116 as a corequisite
Concentrates on the high-end capabilities of a Adobe Photoshop as an illustration, design and photo retouching tool. Students explore a wide range of selection and manipulation techniques that can be applied to photos, graphics and videos. Course competencies and outline follow those set out by the Adobe Certified Associate exam in Visual Communication Using Adobe Photoshop.

MOT 138 Medical Assisting Laboratory Skills
4 credit hours
Prerequisite: Grade of C or better in BIO 201, BIO 202, COM 220, ENG 121, HPR 178, MOT 136 and PSY 101
Introduces the student to basic routine laboratory skills and techniques for collection, handling, and examination of laboratory specimens often encountered in the ambulatory care setting. Emphasizes hands-on experience.

MOT 140 Medical Assisting Clinical Skills
4 credit hours
Prerequisite: Grade of C or better in BIO 201, BIO 202, COM 220, ENG 121, HPR 178, MOT 136 and PSY 101; and grade of C or better in MAT 121 or Math assessment score of 85 or better
Provides hands on experience with the clinical skills required for assisting with patient care. Delivers the theory behind each skill presented as well as proper technique for performing each skill.

MOT 150 Pharmacology for Medical Assistants
3 credit hours
Prerequisite: Grade of C or better in BIO 201, BIO 202, HPR 178 and MOT 136
Corequisite: HPR 137
Provides an overview of pharmacology language, abbreviations, systems of measurement and conversions. The Controlled Substances Act, prescriptions, forms of medications, patient care applications, drug classifications/interactions, and safety in drug therapy and patient care are presented. Information regarding the measurement of medications, dosage calculations, routes of administration, and commonly prescribed drugs in the medical office is provided.

PHI 205 Business Ethics: GT-AH3
3 credit hours
Examines philosophical theories about ethics and relevant subsidiary theories about the nature of justice in order to gather ethical decision-making criteria. Such criteria will be applied through logical argumentation to various moral issues and challenges in today's business environment. Issues covered will include economic distribution, the presuppositions of business, job discrimination, worker's rights, consumerism, advertising, responsibility to the environment, as well as compassionate and fair responsibility to society. This course is approved as part of the Colorado Statewide Guaranteed transfer curriculum: GT:AH3.

RTE 132 Radiographic Pathology and Image Evaluation II
1.5 credit hours
Prerequisite: RTE 101, RTE 111, RTE 121, RTE 122, RTE 131, RTE 141, RTE 142, RTE 181, RTE 182, and RTE 183 with a grade of C or better
Corequisite: RTE 221 and RTE 281
Provides detailed anatomic/pathologic discussion of the spine, circulatory system, nervous system and skull and related medical terminology.
RTE 221 Advanced Medical Imaging  
3 credit hours  
**Prerequisite:** RTE 101, RTE 111, RTE 121, RTE 122, RTE 131, RTE 141, RTE 142, RTE 181, RTE 182, and RTE 183 with a grade of C or better  
**Corequisite:** RTE 231 and RTE 281  
Introduces advanced imaging techniques including radiography of the cranium, facial bones and special radiographic procedures. These concepts are combined with the basic oral communication techniques necessary for the professional radiographer.

RTE 231 Radiation Biology/Protection  
2 credit hours  
**Prerequisite:** RTE 101, RTE 111, RTE 121, RTE 122, RTE 131, RTE 141, RTE 142, RTE 181, RTE 182, and RTE 183 with a grade of C or better  
**Corequisite:** RTE 221 and RTE 281  
Provides the basic knowledge and understanding of the biologic effects of ionizing radiation and radiation protection and safety.

RTE 281 Radiographic Internship IV  
8 credit hours  
**Prerequisite:** RTE 101, RTE 111, RTE 121, RTE 122, RTE 131, RTE 141, RTE 142, RTE 181, RTE 182, and RTE 183 with a grade of C or better  
**Corequisite:** RTE 221 and RTE 281  
Introduces the student to the radiographic specialty areas of Pediatrics, Geriatrics, the out-patient clinic, as well as increasing proficiency in general radiography.

RTE 282 Radiographic Clinical Internship V  
8 credit hours  
**Prerequisite:** RTE 101, RTE 111, RTE 121, RTE 122, RTE 131, RTE 141, RTE 142, RTE 181, RTE 182, RTE 183, RTE 221, RTE 231, and RTE 281 with a grade of C or better  
**Corequisite:** RTE 132 and RTE 289  
Introduces the student to the radiographic specialty areas of pediatrics, geriatrics, the outpatient clinic, portable and trauma radiography as well as increasing proficiency in general radiography.

RTE 289 Radiographic Capstone  
3 credit hours  
**Prerequisite:** RTE 101, RTE 111, RTE 121, RTE 122, RTE 131 RTE 141, RTE 142, RTE 181, RTE 182, RTE 183, RTE 221, RTE 231, and RTE 281 with a grade of C or better  
**Corequisite:** RTE 132 and RTE 282  
Prepares the radiologic technology student to sit for the American Registry of Radiologic Technologists (ARRT) certification examination through a comprehensive review of RTE program curriculum, with practice answering certification examination-type questions through the administration of multiple mock certification exams. Provides the student with the requisite skills to effectively search for a job in medical imaging.

RTE 291 Mammography Internship  
3-9 credit hours  
**Prerequisite:** ARRT Certified  
Provides clinical experience for demonstrating and documenting clinical competencies required by the American Registry of Radiologic Technologist for application for registry examination.

RTH 281 Internship I  
8 credit hours

RTH 282 Internship II  
8 credit hours

RTH 283 Internship III  
8 credit hours

SOC 210 Technology and Society  
3 credit hours  
**Prerequisite:** ENG 121; and SOC 101 or SOC 102 with a grade of C or better  
Analyzes the relationship between technology and human society and culture; how technology has influenced the development of society and how social and cultural forces have influenced the development of technology.
