Tivoli Reimagined

85 Million to redesign Tivoli, AHEC survey to get input (Aug 2025).

1,312 student survey responses, 133 Undergraduate, 4 graduate CCD students???(doesnt exist), 162 CCD affiliated total.

8067 students at CCD, statistics show 1.64% responded. 10% responders to survey were CCD students.

96% CCD students use campus and 76% CCD students use Tivoli, this data shows that CCD students don't use Tri-institutional hub.

Dahlia-Students at CCD use confluence building as a hub since that's our base for events and information.

Lucy-Branding in the tivoli show MSU and CU-denver more than CCD

Tivoli program plan,

- Student fee/bonding(\$30M), state capital construction(no evidence of appropriation, application competing with other educational institutions), philanthropy (not guaranteed)
- Student financial impact, (approx \$2.22 M in debt), students pay on average 90-100 dollars each semester toward this, are we receiving the value? Are students engaged and agree on this plan and believe in it's value.

Auraria institutions: CCD voted no, CU-Denver abstained, and another voted in support.

15-20% student fees associated with this project, but less than 2% represents CCD institution in Tivoli.

Questions for students: What do students need from tivoli, what are students willing to pay for(in fees), what is keeping students away from the tivoli? Why are students stopping by? What do you believe the purpose of the Tivoli building is, will the revitalizing meet the purpose? How familiar are students with the project?

- ★ Asking for question creation for survey, how should we reach out, giveaway?
- ★ Hoping to complete by November

-Giveaway for backpack and water bottle ticket selection!

-If you answered "yes" to question 18 in the (Did you meet your required hours for your position?), please list the days you worked on SGA stuff for our records, even if it's all your hours in one day.
