

## Importing your Course Content Zip File

1. Click on **More Tools**→**Course Admin** of your D2L course.

2. Choose **Import/Export/Copy Components**

3. Scroll down and click on **Import Components**.
  - a. **Keep the default of from a course package.**

4. Click on **Start**.
5. **Locate your zip file from your desktop or flash drive and upload.**

Depending on the size of the course, this could take a few minutes or much longer. **Courses with several images, Power Points, videos, or a lot of content will take longer. If you had to break up your course into several zip files when you exported, bring them over one at a time.**
