

Navigate360 – Student Application Notifications

Introduction to Notifications:

Overview:

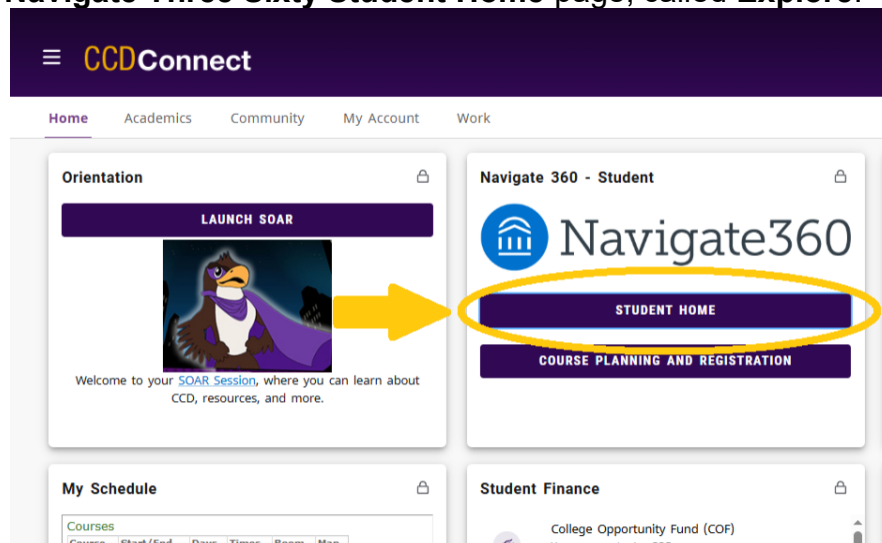

The **Notifications** feature allows students to stay informed about important updates, reminders, and actions required. It helps students manage their tasks by providing timely alerts, allowing them to read, mark, delete, or flag notifications. This feature ensures that students don't miss crucial updates and can customize their preferences for a more streamlined experience.

Getting Started with Notifications

1. Accessing Notifications on Desktop

1.1. Access Navigate Three Sixty

On the **C-C-D Connect dashboard**, click **Navigate Three Sixty - Student Home**. This will take you to the **Navigate Three Sixty Student Home** page, called **Explore**.

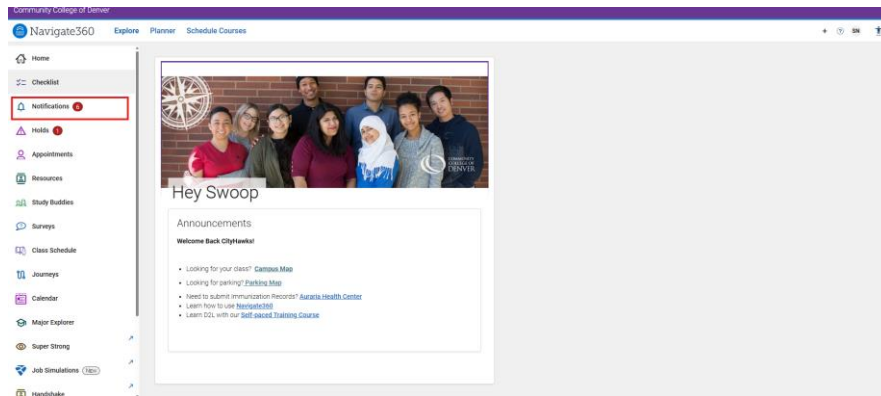

1.2. Access Notifications

Click the **bell icon** in the top-right corner to open your **Notification Center**.

Notifications

1.3. View Notifications

Read and click on any notification to see more details or take action.

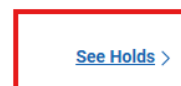

1.4. Manage Notifications & Stay Updated

- After viewing a notification, it will be marked as read. You can delete completed notifications to declutter or flag them to review later.
- To customize your notifications, go to the **Notification Settings** link, adjust your preferences, and click **Update Settings**. It's recommended to check notifications regularly and enable email notifications for updates.
