

Navigate360 – Student Application

Class Schedule

Introduction to Class Schedule:

Overview:

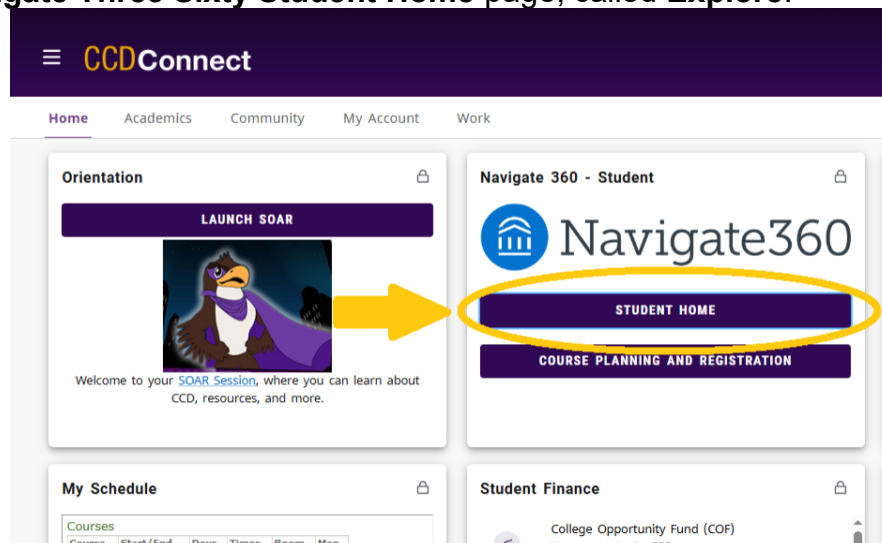

The **Class Schedule** feature allows students to easily view their upcoming courses, including details like course names, days, times, locations, and instructors. It helps students stay organized by providing a clear overview of their schedule and offering quick access to course details, including descriptions and materials. This feature ensures students can efficiently manage their time and academic responsibilities.

Getting Started with Class Schedule:

1. Accessing Class Schedule on Desktop

1.1. Access Navigate Three Sixty

On the **CCD Connect dashboard**, click **Navigate Three Sixty - Student Home**. This will take you to the **Navigate Three Sixty Student Home** page, called **Explore**.

1.2. Access Schedule

On the left-hand side, select the **Class Schedule** icon to view your schedule.

Navigate360 – Student Application

Class Schedule

The screenshot shows the 'NAVIGATE' application interface. At the top, there's a header with the 'NAVIGATE' logo and links for 'Explore' and 'Planner'. A left sidebar contains various icons for navigation. The main content area is titled 'Courses: Spring 2023' and has two tabs: 'List View' (selected) and 'Schedule View'. Below the tabs, three course cards are displayed:

- CSCI120**
Computer Concepts and Applications
CRN_test 26502
LAB
- CSCI120**
Computer Concepts and Applications
CRN_test 26503
LECTURE
- CSYS207**
MS Office
CRN_test 23257
ARLINGTON CENTER ROOM 105
Mon 9:00 AM - 10:50 AM
INDEPENDENT STUDY

1.3. View

You can view your upcoming classes with course names, days, times, locations, and instructors. Choose between **list view** or **schedule view** (list view is more user-friendly). Click on any course name for more details, including descriptions, instructor info, and course materials.

Description

Covers the diversity of microorganisms, their structure, physiology, and the identification process. There is an emphasis on microorganisms that cause infectious disease and the process of infection, host immune responses, and methods to control microorganisms. Laboratory experiences include culturing, identifying, and controlling microorganisms. This course is designed for students pursuing a health science field. This is a statewide Guaranteed Transfer course in the GT-SC1 category.

2. Accessing the Class Schedule on Mobile

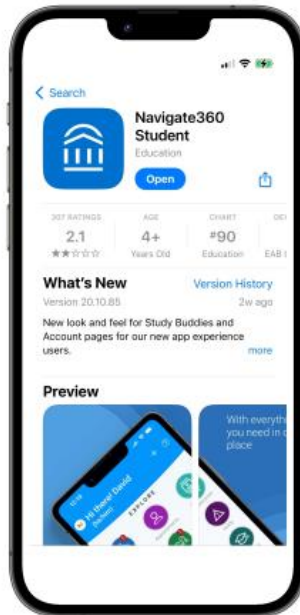

2.1. Access Navigate Three Sixty Mobile Application

Download our mobile app from the app store.

Once downloaded, select the application from your mobile device.
