COMMUNITY COLLEGE OF DENVER Addendum to the 2025-2026 Online and Printed Catalog

This addendum is an integral part of the college's 2025-2026 Academic Catalog; the purpose of this document is to amend current information or include additional information. The information published herein is effective for the 2025-2026 school year. If any of these changes impact a student's ability to graduate, please contact the dean for the area in question.

Course Additions

BEH 3030 | Behavioral Health Program and Case Management

Lecture Credit: 2

Examines behavioral health program development and case management practices. It explores the principles and strategies for designing, implementing, and evaluating effective behavioral health programs. The course focuses on the practical application of case management skills, including assessment treatment planning, resource coordination, and advocacy. The course reviews ethical considerations, cultural competency requirements, and multidisciplinary, whole-person approaches to behavioral healthcare treatment.

BEH 4080 | Mental Health Internship

Internship Credit: 5

To be determined by the individual instructor. A Course Description will be developed for each course and documented within the course syllabus. Refer to the SFCC Style Guide for Course Description, Required Course Learning Outcome, and Topical Outline guidelines.

Prerequisite: BEH 3088 with a grade of C or better

PSY 2112 | Introduction to Addictive Behavior

Lecture Credit: 2

Focuses on addictive behavior and its effect on individuals, families, and society.

PSY 2551 | Child Abuse and Neglect

Lecture Credit: 3

Examines the causes and effects of physical, sexual, and psychological abuse and neglect. This course emphasizes intervention and prevention strategies.

Course Revisions

CSO 4005 | Endocannabinoid System and Pharmacology

Lecture Credit: 4

Covers the endocannabinoid system, receptors, their locations throughout the body, and their physiological relevance. This course introduces different types of cannabinoids and other compounds found within cannabis sativa and their physiological activity. Additionally, this course covers routes of cannabis administration, common dosing of cannabis products in clinical settings, the entourage effect, and adverse reactions to cannabis.

Prerequisite: BIO 1006 or BIO 2101 or BIO 1111 with a grade of C or better

Program Additions
