COMMUNITY COLLEGE OF DENVER
Addendum to the 2016-2017 Online and Printed Catalogs

Additions/Changes In Yellow

This addendum is an integral part of the college’s 2016-2017 Academic Catalog; the purpose of this document is to amend current information or include additional information. The information published herein is effective for the 2016-2017 school year.

If any of these changes impact a student’s ability to graduate, please contact the dean for the area in question.

Added Programs

Note: The following added programs are not new to CCD but were omitted from the printed version of 2016-2017 catalog.

ASSOCIATE OF ARTS DEGREE – EARLY CHILDHOOD EDUCATION DESIGNATION
The following courses represent the statewide transfer agreement between the Colorado Community College System and all Colorado four-year institutions offering Early Childhood Teacher Education preparation programs. The final 6 elective credits must be determined with the assistance of an advisor as they are specific to the receiving institution. The four-year college or university will accept all credits in the student’s early childhood education graduation agreement earned within 10 years of transfer. Courses earned more than 10 years earlier will be evaluated on an individual basis. All interested students should meet with an Academic Advisor to select appropriate electives.

General Education Required Courses

English
ENG 121 English Composition I .................................................................GT-CO1 3
ENG 122 English Composition II .............................................................GT-CO2 3

Mathematics
Select one of the following ...........................................................................GT-MA1 6-7
MAT 120 Math for Liberal Arts .................................................................GT-MA1
or
MAT 121 College Algebra ........................................................................GT-MA1
MAT 135 Intro to Statistics ......................................................................GT-MA1
or
MAT 155 Integrated Math I

&
MAT 156 Integrated Math II

Arts & Humanities
Select two courses from the following ..........................................................GT-AH1 6
ART 110 Art Appreciation .................................................................GT-AH1
LIT 115 Introduction to Literature I .........................................................GT-AH1
LIT 255 Children’s Literature
MUS 120 Music Appreciation .................................................................GT-AH1

History
HIS 121 U.S. History to Reconstruction ..................................................GT-HI1 3

Social & Behavioral Sciences
GEO 105 World Regional Geography ......................................................GT-SS2 3

Subtotal ........................................................................................................35-36

Additional Required Courses

COM 115 Public Speaking .........................................................................3
ECE 101 Introduction to Early Childhood Education ..................................3
ECE 102 Introduction to Early Childhood Lab Techniques ........................3
Select one of the following ........................................................................1
ECE 188 Practicum: Early Childhood Education
ECE 209 Observing and Utilizing Young Children’s Assessment Instruments
ECE 236 Child Growth/Development Laboratory
ECE 205 Nutrition, Health and Safety .....................................................3

All changes are shaded yellow.
ASSOCIATE OF ARTS DEGREE – ELEMENTARY EDUCATION DESIGNATION

The following courses represent the statewide transfer agreement between the Colorado Community College System and all Colorado four-year institutions offering Elementary Education teacher preparation programs. The first 41 credit hours are common for all transfer institutions. The final 19 elective credits must be determined with the assistance of an advisor as they are specific to the receiving institution. ENG 121 must be completed with a grade of B or better for transfer. The four-year college or university will accept all credits in the student’s education graduation agreement earned within 10 years of transfer. Courses earned more than 10 years earlier will be evaluated on an individual basis. All interested students should contact their Academic Advisor to select appropriate electives.

Required Courses that fulfill General Education Requirements

**English**
- ENG 121 English Composition I .................................................................................................................. GT-CO1 1 ................................................................................................................................. 3
- ENG 122 English Composition II .................................................................................................................. GT-CO2 ................................................................................................................................. 3

**Communication**
- COM 115 Public Speaking ............................................................................................................................ 3

- PSY 238 Child Development ............................................................................................................................ GT-SS3 ........................................................................................................................................ 3

**Subtotal** .................................................................................................................................................. 41

**Electives**
- Select 19 credits 2 ........................................................................................................................................... GT-AH2

**Subtotal** .................................................................................................................................................. 19

**Total Credits** ............................................................................................................................................ 60

---

1 Some educator preparation programs require a Bin ENG 121 as an admission requirement. However, a C or better guarantees the general education GT-CO1 requirement has been met.
2 To be determined by home and transferring institution. See an Academic Advisor for more information.
3 Students must successfully pass BOTH SCI 155 & 156 to satisfy the gPathways science requirement.

Note: Course substitutions are not permitted for any Statewide Transfer Degree program. If, because course substitutions are not permitted, a student is not able to complete this Statewide Transfer Degree plan, the student should see an Academic Advisor for guidance.

1 Students planning to transfer to CSU-FC for completion of the BA in Studio Art must complete two semesters of one foreign language for their electives OR be able to pass the CSU-FC Foreign Language placement exam at the sophomore level. It may not be possible to complete the BA in Studio Art in two years without this prior foreign language competency.

NOTE: Course substitutions are not permitted for any Statewide Transfer Degree program.  
If, because course substitutions are not permitted, a student is not able to complete this Statewide Transfer Degree plan, the student should see an Academic Advisor for guidance.

ASSOCIATE OF APPLIED SCIENCE – EMERGENCY MEDICAL SERVICES  
Center for Health Sciences at Lowry  
This associate's degree prepares students for advanced medical fields such as nursing, paramedic, physician assistant, medicine and physical therapy. Students completing the Associate of Applied Science Degree in Emergency Medical Services will be eligible for preferential acceptance into the Paramedic program at Denver Health providing they meet the established entry requirements. This associate's degree program is eligible for federal student aid.

Program Application, Admission and Requirements  
Successful completion of the Emergency Medical Technician Certificate is required to continue the AAS in EMS. See the Emergency Medical Technician (EMT) Certificate for program application, admission and requirement information.

- Successful completion of the NREMT practical and written examination. Students must have a current NREMT EMT Certificate.
- Current Healthcare Provider or Professional Rescuer CPR card.
- Pass a drug screen and background check.
- Follow all immunization policies for CCD which includes, but is not limited to, a current TB screening test. These tests must be completed by CCD's designated agency.
• Hepatitis B vaccination and proof of titer.
• Completion of the EMS AAS application.

ASSOCIATE OF APPLIED SCIENCE VETERINARY TECHNOLOGY

Center for Health Sciences at Lowry

Veterinary Technicians are paraprofessional members of a veterinary team, assisting a Doctor of Veterinary Medicine. Veterinary Technicians perform a variety of tasks, including preparing examination rooms and surgery suites, holding and restraining animals during the exam and/or treatment, collecting specimens, performing routine laboratory procedures, taking diagnostic X-rays, administering medication or treatments, assisting in surgery, performing office skills, maintaining inventory of supplies and assisting with client education.

Career opportunities for Veterinary Technicians are available in a variety of settings, including private veterinary practices, research laboratories, kennels, zoos, and local, state and federal agencies. These experiences can lead to other job opportunities such as sales, animal hospital administration, teaching in a Veterinary Technology program and animal advocacy.

This is a full-time 5 semester program that is a blend of academic and clinical coursework that requires attention to detail, motivation and the ability to complete tasks within a specified time frame. The students of Community College of Denver Veterinary Technology Program are encouraged to be self-directed in their learning and to establish high standards of professional and personal excellence.

Graduates are eligible to take the Veterinary Technician National Examination and have been able to rapidly find placement in the veterinary health care community. Community College of Denver Veterinary Technology program is one of only two Community College of Colorado programs located in the Denver Metro area offering an Associate of Applied Science Degree in Veterinary Technology.

Community College of Denver offers one of the most respected Veterinary Technology programs in the state.

RADIATION THERAPY CERTIFICATE

Center for Health Sciences at Lowry

Upon successful completion of the Radiation Therapy Program, graduates are eligible to apply for registry by the American Registry of Radiologic Technologists (ARRT) in Radiation Therapy. This program will prepare diagnostic technologists, RT(R), to be Radiation Therapists, RT(T). A certificate is obtained over three semesters. A new class begins in the fall semester of each year. Graduates will be dual registered, RT(R)(T).

APPLICATION INFORMATION

Visit www.CCD.edu/Rad-Therapy to view information regarding the program application process. For more information, please contact Don McCoy (Program Chair) at 303.365.8356.

Qualified applicants will be notified on or before May 25. Upon program acceptance, background check, and drug screening must be completed prior to the start of classes.

*Prerequisite: MAT 121*

CRJ 135 | Judicial Function
Provides an overview of the structure and function of the dual American judicial system and the behavior of actors (judges/justices, lawyers, law clerks, interest groups, etc.) within the system. Emphasis is placed on the organization and administration of state and federal courts, criminal court procedures, juries, selection of judges, decision-making behavior of juries, judges and justices, and the implementation and impact of judicial policies.

CRJ 230 | Criminology
Provides an introduction to the study of crime, understanding the causes of crime, and examines, theoretical frameworks and theories to explain criminal behavior. Within a social context, consideration is given to how theories have emerged and understand how social context contributes to explanations of crime. Examination of the nature of crime, crime victimization, crime patterns, types of crime, crime statistics, and criminal behavior is also included.

CRJ 236 | Research Methods
Provides an introduction to research methods in criminal justice. Addresses foundations of research, analysis of findings, and ethical issues in researching criminal justice issues. This course will use an interactive approach in basic research concepts and practices. Students will obtain a thorough understanding of how research is conducted and how practitioners can benefit from this knowledge. Additionally, students will develop research proposals, conduct appropriate reviews of previously published research, and write a final research study.

ECE 101 | Introduction to Early Childhood Education
Provides an introduction to the profession of Early Childhood Education (ECE). Course content includes eight key areas of professional knowledge related to working with young children and their families in early care and education settings: child growth and development; health, nutrition and safety; developmentally appropriate practices; guidance; family and community relationships; diversity and inclusion; professionalism; and administration and supervision. This course addresses children ages birth through 8 years.

ECE 102 | Introduction to Early Childhood Education Techniques
Focuses on a classroom seminar and placement in a child care setting. The supervised placement provides the student with the opportunity to observe children, to practice appropriate interactions, and to develop effective guidance and management techniques. Addresses ages birth through age 8.

ECE 103 | Guidance Strategies for Young Children
Explores guidance theories, applications, goals, and techniques, as well as factors that influence behavioral expectations of children. This course includes classroom management and pro-social skills development of young children in early childhood (EC) program settings. This course addresses children ages birth through 8 years.

ECE 205 | ECE Nutrition, Health, and Safety
Focuses on nutrition, health, and safety as key factors for optimal growth and development of young children. This course includes nutrition knowledge, menu planning, food program participation, health practices, management and safety, appropriate activities, and communication with families for early childhood educators. This course addresses children ages birth through 12 years.

ECE 220 | ECE Curriculum Development: Methods and Techniques
Provides an overview of early childhood curriculum development. This course includes processes for planning and implementing developmentally appropriate environments, materials, and experiences that represent best practices in early childhood (EC) program settings. This course addresses children ages birth through 8 years.

ECE 238 | ECE Child Growth and Development
Covers the growth and development of the child from conception through the elementary school years. This course emphasizes physical, cognitive, language, social, and emotional domains of development as they pertain to the concept of the whole child. It also includes ways adults can provide a supportive early childhood care and educational environment through teamwork and collaboration.

ECE 240 | Administration of Early Childhood Care and Education Programs
Provides foundational knowledge in early childhood program business operations, program development, and evaluation. This course covers administrative skills, ethical decision making, risk and resource management, and components of quality Early Childhood Education (ECE) programs serving children ages birth through 12 years.

*All changes are shaded yellow.*
ECE 241 | Administration: Human Relations for Early Childhood Education
Focuses on the human relations component of an early childhood professional's responsibilities. This course includes director-staff relationships, staff development, leadership strategies, family-professional partnerships, and community interaction.

ECE 256 | Working with Parents, Families, and Community Systems
Examines personal attitudes regarding families, family values systems, and how personal attitudes affect parent-professional partnerships in the early childhood education program. This course covers communication, problem-solving, and conflict resolution strategies. Effective activities and resources to support family involvement in the classroom will be created. This course addresses children ages birth through 8 years.

ECE 260 | The Exceptional Child
Presents an overview of critical elements related to educating young children with disabilities or special needs in the early childhood setting. Topics include: typical and atypical development; legal requirements; research-based practices related to inclusion; teaming and collaboration; and accommodations and adaptations. This course examines how a disability or special need may impact a young child’s learning process. This course addresses children ages birth through 8 years.

ESL 054 | ESL Reading and Composition Foundations
*Lecture Credit: 5-6*

HPR 208 | Medical Record Terminology

MGD 102 | Introduction to Multimedia
Introduces the basic components of multimedia: text, graphics, animation, sound, and video. Students gain an introductory knowledge of various multimedia and design software programs. Students gain hands-on, technical, conceptual and aesthetic experience pertaining to the creation of multi-dimensional design and time-based media via an array of projects and demonstrations. Students will be introduced to career opportunities within multimedia fields.

PSY 200 | Research Methodology
*Lecture Credit: 4*
Introduces research methods and designs including correlational studies, experimental designs and quasi-experimental designs. Additional topics include evaluations of scientific research, data analysis, report writing and research ethics.

VET 182 | Internship
*Internship Credit: 2*
Provides students with the opportunity to supplement coursework with practical work experience related to their educational program. Students work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.
*Prerequisite: VET 108, VET 116, VET 120, and VET 205 with a grade of C or better*

VET 183 | Internship
*Internship Credit: 3*
Provides students with the opportunity to supplement coursework with practical work experience related to their educational program. Students work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.
*Prerequisite: VET 101, VET 103, VET 113, VET 114 with a grade of C or better*

VET 281 | Internship II
*Internship Credit: 3*
Provides students with the opportunity to supplement coursework with practical work experience related to their educational program. Students work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.
*Prerequisite: VET 182 with a grade of C or better*

VET 282 | Internship III
*Internship Credit: 4*
Provides students with the opportunity to supplement coursework with practical work experience related to their educational program. Students work under the immediate supervision of experienced personnel at the business location and with the direct guidance of the instructor.
*Prerequisite: VET 182, VET 281, and VET 225 with a grade of C or better, or VET 225 as a corequisite*
New Courses

AAA 175 | Special Topics
Lecture Credit: 0-12
Exploration of current topics, issues and activities related to one or more aspects of the named discipline.
Prerequisite: This course may require prerequisites or permission of instructor

DEH 302 | Research Methodologies
Lecture Credit 3
Develops the skills necessary to identify and develop a research topic, navigate a research database and develop an effective, scientifically sound, and persuasive research paper with specific emphasis on dental and dental hygiene topics.

DEH 325 | Advanced Concepts in Oral Health Promotion and Community Planning I
Lecture Credit 2
Develops the skills necessary to identify and develop a research topic, navigate a research database and develop an effective, scientifically sound, and persuasive research paper with specific emphasis on dental and dental hygiene topics.

DEH 341 | Clinical Teaching Methodologies
Lecture Credit 3
Provides students the opportunity to compare and contrast practical experience as it relates to dental hygiene clinical instruction. Students will apply teaching methodologies, psychomotor learning theories, feedback techniques and motivational strategies to direct student learning.

DEH 345 | Advanced Dental Nutrition for the Public Health Hygienist
Lecture Credit 3
Examining program planning and evaluation, healthcare policy, and cultural and nutritional issues specific to community nutrition and its relationship to oral health.

DEH 355 | Social and Behavioral Determinants of Oral Health
Lecture Credit 3
Evaluates the complexity and interplay of social and physical environmental structures, economic systems, and behavioral patterns that affect overall health with a focus on health services, health beliefs and their impact on health-related behavior choices.

DEH 387 | Dental Hygiene Leadership and Administration
Lecture Credit 3
Examines the skills needed for leadership roles in public health, community health, education, business and industry with emphasis on leadership theories and application.

DEH 411 | Teaching Methodologies
Lecture Credit 4
Provides a general overview of the concepts and theory relative to dental hygiene education. Students will be introduced to dental hygiene accreditation standards, outcomes centered objectives, syllabus development, lesson planning, content delivery, test construction and assessing student learning. Students will explore the various learning styles and technology available for delivery of course content.

DEH 425 | Advanced Concepts of Oral Health Promotion and Community Planning II
Lecture Credit 1
Assesses the oral health needs and issues of designated populations and recommend strategies to meet those needs by utilizing advanced concepts from Oral Health Promotion I including risk reduction, health literacy strategies, and epidemiology.

DEH 476 | Diversity and Cultural Competence: Relationship to the Delivery of Oral Health I
Lecture Credit 1
Examines knowledge, beliefs and behaviors that influence healthcare choices and become barriers to healthcare services by creating cultural competence with a positive effect on patient care delivery and acceptance of treatment.

DEH 478 | Diversity and Cultural Competence: Relationship to the Delivery of Oral Health II
Lecture Credit 3
Develops advanced skills from Diversity and Culture Research I in the knowledge, beliefs and behaviors that influence healthcare choices and become barriers to healthcare services by proving cultural competence in patient care delivery.

All changes are shaded yellow.
DEH 481 | Public Health Internship I  
Internship Credit 2  
Applies community program planning experiences in a community health setting with oral health promotion and delivery through direct work experience.

DEH 482 | Public Health Internship II  
Internship Credit 3  
Applies community program planning experiences in a community health setting with oral health promotion and delivery through direct work experience as a continuation of Public Health Internship I.

HPR 112 | Phlebotomy  
Lecture Credit 2, Lab Credit 2  
Teaches the duties associated with the practice of venipuncture, capillary puncture, and special collection procedures. Students will have experience with quality control, infection control and safety procedures as well as laboratory computer systems. Students successfully completing this course may apply for a National Phlebotomy Registry Examination.

HPR 113 | Advanced Phlebotomy  
Lecture Credit 1, Clinical Credit 3  
Focuses on advanced phlebotomy skills including laboratory protocols, specimen processing and point of care documentation. This course provides opportunities for the student to master learned skills.

HWE 123 | Applied Nutrition to Whole Food Cooking  
Lecture Credit 3  
Encompasses the principles of Human Nutrition (HWE 100) and applies the concepts to healthy cooking and disease prevention. Students will learn "hands on" cooking principles and preparation methods for a variety of healthy food choices. Course includes knife and food safety, food costing, culinary vocabulary, food preservation, menu planning and shopping for different dietary restrictions and disease populations. Prevention of chronic disease and obesity through good nutrition and healthy eating are foundations for this course.

MAT 103 | Math for Clinical Calculations  
Lecture Credit 3  
Provides a review of general mathematics, introductory algebra and an opportunity to learn systems of measurement and methods of solving problems related to drug dosage and intravenous fluid administration. It is designed for students in the health disciplines. Topics may include algebra, graphs, measurement and conversion between various systems of measurement. 
Prerequisite: Grade of B or better in MAT 050 or a CCPT BAAD of 106, IADI of 001, or TCDI score of 001, or be co-enrolled in MAT 091, a structured study experience for MAT 103, MAT 107, MAT 108 or MAT 112 students.

VET 172 | First Year Clinical Rotation  
Clinical Credit: 1  
Examines basic animal care, examination, and handling skills essential for veterinary technicians including demonstrating an understanding of animal behavior, restraining cats and dogs in a safe and effective manner, performing thorough physical examinations on cats and dogs, obtaining accurate physiological data on cats and dogs, obtaining a complete patient history, performing a nail trim, administering vaccines and collecting a blood sample from a cat or dog. 
Prerequisite: VET 102, VET 108, VET 116, VET 120, VET 205, with a grade of C or better  
Corequisite: VET 182

VET 223 | Introduction to Anesthesia  
Lecture/Lab Credit: 1  
Examines basic principles in veterinary anesthesiology, including the role of the veterinary technician anesthetist, important concepts relating to various types of anesthesia, preparation of anesthetic equipment and machine, pre-operative patient management, and recording information during anesthesia. 
Prerequisite: VET 102, VET 108, VET 116, VET 120, VET 205, with a grade of C or better

VET 232 | Veterinary Dentistry  
Lecture Credit: 1  
Examines essentials in veterinary dentistry as it concerns the veterinary technician, including dental morphology, performing a dental exam, identifying common dental problems, equipment used to perform a professional dental cleaning, the proper steps to perform a professional dental cleaning, and the role of veterinary technician in client education and preventative home care. 
Prerequisite: VET 225, VET 227, VET 241, VET 281 with a grade of C or better  
Corequisite: VET 240

All changes are shaded yellow.
New Program

BACHELOR OF APPLIED SCIENCE – DENTAL HYGIENE

Minimum 120 Credit Hours*

Offered completely online, the Bachelor of Applied Science (BAS) Degree in Dental Hygiene is a degree completion program. The program is designed to allow registered dental hygienists (RDH) an avenue to advance their dental hygiene education and increase their employment options. The RDH to BAS program will expand career options for individuals currently holding a Certificate or Associate Degree in Dental Hygiene. The program offers flexibility in scheduling and the ability to continue working while advancing your education and ultimately your career opportunities. Admission to the BAS program requires an Associate of Arts (AA), Associate of Applied Science (AAS), or Certificate in Dental Hygiene from a Commission on Dental Accreditation (CODA) accredited dental hygiene program from which the Community College of Denver (CCD) will accept transfer credits.** Candidates for the BAS Degree Program will decide where they would like to place the emphasis of their coursework. Candidates can choose either public health or clinical teaching/education. Regardless of the path chosen, the coursework and internship experiences will facilitate the development of skills in administration, planning, leadership and research.

* The 120 credit hours is a total of all credits earned from Dental Hygiene Prerequisite Courses, Dental Hygiene Associate Degree Courses, and CCD Bachelor of Applied Science Degree Courses

** CCD will only accept transfer credit from post-secondary institutions accredited by one of the six regional accrediting associations. Credits earned at nationally accredited or unaccredited institutions are not transferable to CCD.

Dental hygienists who have earned a Bachelor of Applied Science degree in dental hygiene can be employed in a variety of settings beyond the traditional private practice dental setting. Career opportunities are expanded and can include:

- community dental health clinics
- public schools
- clinical and basic science research laboratories
- state and federal health facilities
- office management
- dental hygiene education
- sales and marketing representatives
- entrepreneurial ventures

Bachelor degree trained dental hygienists can develop program plans for public health institutions and organizations, participate in research, educate dental, dental hygiene students and community groups, be employed within dental sales, medical sales, marketing organizations and consulting firms. Dental hygienists with an entrepreneurial spirit can develop their own unique niche to support dentistry and dental hygiene through continuing education, practice management and publications.

Applications for the Bachelor of Applied Science in Dental Hygiene program are available between February 1st and May 1st and must be submitted electronically no later than May 1st to be considered for admission into the class beginning in the fall of the academic year. There is one application cycle per year. A maximum of 25 individuals who meet the following criteria will be accepted into the BAS program.

- Satisfactory completion of all Community College of Denver general admissions criteria and admittance to CCD.
- Completion of a Commission on Dental Accreditation (CODA) accredited AA, AAS, or Certificate in Dental Hygiene including 90 credit hours that can be accepted into the Community College of Denver for transfer credit.
- A cumulative GPA of 2.5 or higher in all transferring dental hygiene degree course work and dental hygiene prerequisite courses.
- Dental hygiene licensure. Students in the program must have an active license to practice dental hygiene in at least one state within the United States.
- Two Letters of Recommendation
- Proof of Colorado residency or residency within a state under the WICHE Reciprocity Agreement.
- Completion of a writing sample. Specific directions and criteria for the writing sample will be provided with the Application materials.

BAS Degree Dental Hygiene Prerequisites:

Before applying, you must meet the prerequisites for this program.

- Graduation from a CODA Accredited Dental Hygiene Program*+.
  — Unofficial transcripts from your AA, AAS, or Certificate Dental Hygiene program, including prerequisite dental hygiene coursework must be submitted with your application for evaluation and review.
- Satisfactory completion of all CCD general admissions criteria
- Current dental hygiene licensure to practice within the United States
- A cumulative GPA of 2.5 or higher in all transferring dental hygiene degree course work and dental hygiene prerequisite courses.
• A minimum “C” grade in MAT 135, Introduction to Statistics.
  — Although not required prior to admission, successful completion of MAT 135, Introduction to Statistics, before beginning
  DEH 302 (Applied Dental Hygiene Research Methodologies) is strongly encouraged. This course must be completed for
  graduation from the BAS DEH program.
• Basic computer skills are necessary, including proficiency in Microsoft Excel, PowerPoint and Word, communication via email, and
  use of the Internet.
• Ready access to a computer with a stable internet connection is mandatory as all coursework will be completed online.
• Attend an Orientation session on campus approximately one month prior to the start of the Fall semester.
