Students can **take college courses for free** while they're in high school. These courses, called **concurrent enrollment classes**, will count towards high school graduation, and be transferable to **2- and 4-year colleges**. This guide will help high school students, parents, and counselors choose general transfer courses that work with any 2 or 4 year public college in Colorado. If you know your major, however, we ask that you choose classes based on that degree.

**FOR INFORMATION:**
**CONTACT YOUR HIGH SCHOOL COUNSELOR**
